Check Weighing Machine: DFC-C320

Application:

To check weight of various products. Over or less weight will be rejected out, correct weight product will flow through.

Features:

- 7" SIEMENS touch screen and PLC, stable and easy to operate
- Solid stainless structure ensures stable performance and precise weighing
- Reject arm, air blast or pneumatic pusher for rejecting
- Removable belt without tools, for ease of cleaning
- Emergency switch for user friendly operation

**** Suitable in-line with Metal Detector DFC-D300**

Specifications:(one of the models available)

Model	DFC-C320
Control System	7" SIEMENS HMI and PLC
Weighing range	10-2500 grams
Speed	30-80bags/min
Accuracy	± 0.1-1.5 grams
Product Size	10<L<370; 10<W<300 mm
Mini Scale	0.1 gram
Weigh Belt	570L*320W mm
Reject system	Reject Arm/Air Blast/ Pneumatic Pusher
Power supply	220V/50HZ or 60HZ Single Phase
Packing Dimension	2000L*500W*900H mm
Gross Weight	250kg

HACCP ACCREDITED COMPANY
